

VCNS Parent/Volunteer Statement of Confidentiality

VCNS is a unique school setting in which parents/caregivers are likely to be in the classroom at various points throughout the year either as volunteers or substitutes. Parents/caregivers are more intimately involved in their child's education. Because of the increased involvement in the school and contact with teachers, it is important to remember that a child's behavioral and educational needs and circumstances are confidential and should not be discussed with other parents from the school, family members, or anyone else in the community. It is imperative to respect each child's individuality and keep their information confidential. We thank you for your cooperation and commitment to maintaining a community that is safe and comfortable for all.

As a volunteer at the Village Cooperative Nursery School, I _____ will abide by this confidentiality agreement and will not discuss my observations and knowledge of the children and families with others. I understand that information regarding students at VCNS is strictly confidential, whether medical or otherwise, and must never be discussed.
